

2021 MACKAY FESTIVAL OF ARTS

▶ MORPHOLOGY

the indirect Object

A tactile, interactive public art activation designed for community members with all abilities.

A rainbow of interactive neon wire sculptures that morph throughout the night, the Morphology sculptures change with each new interaction.

Each glow wire can be twisted, bent, and shaped into unique images. Only your imagination is the limit!

▶ ELECTRIC MEADOW

the indirect Object

Tip toe through a geometric garden of giggles, splats, squishes and pops. A contained path of interactive floor tiles that respond with light and sound.

▶ STRING SYMPHONY

Spare Parts Puppet Theatre

A large-scale, interactive performance installation that uses puppetry to explore connection, community and collaboration.

Hand-woven using more than one kilometre of rope, the giant illuminated puppet is waiting to be brought to life.

This mesmerising performance invites twelve audience members to become puppeteers, and manipulate the giant installation.

▶ COMMUNITY INSTALLATIONS

Discover community creations along the trail, thanks to local artist Wanda Bennett.

Soak in the glowing animals, shadow puppets, projections and more, on your journey between installations.
